

WORK OPPORTUNITY

SEEKING A RESEARCH FELLOW WITH A MASTERS DEGREE IN PSYCHOLOGY

We seek a full-time research fellow to work at the Católica-Lisbon School of Business & Economics, on a research program focused on emotional and interpersonal skills, bridging social, work, and organizational psychology and organizational behavior. Responsibilities include designing and conducting research studies, including data collection, data analysis and data management. Desired characteristics include: Masters degree with a high final degree classification, experience in data management and data analysis using SPSS syntax, command of English and Portuguese, and a strong interest in research. This position is targeted at individuals holding a Masters degree who wish to gain further research experience prior to pursuing a doctoral degree in social or organizational psychology or organizational behavior. If interested, please read the announcement placed on the ERA Careers portal (www.era Careers.pt; fellowship reference: UNICEE-2011-BI2) and submit your application (cover letter and CV in English, plus references) by November 3, 2011. If you have questions that are not addressed on the ERA Careers portal, please contact Dr Paulo Lopes (email: Paulo.Lopes@ucp.pt).

Paulo N. Lopes, Ph.D.
